### Sea Collection Wrapped Canvases

Here's a unique set of four sea-creature canvases to complete a contemporary ocean themed nursery. The four prints; stingray, seahorse, jellyfish and octopus, are created on a 12x12 stretched canvas, which means no issues with broken glass if it gets hit with an errant toy. The whimsical sea-life on the aquatic blue background is subtle and calming (no Sponge Bob grimacing at you from his pineapple under the sea). The lovely canvases are available for pre-order at [Baby Geared](#). \$155 for the set.
